07.02.2025 14:58:05	Brazil Arabica (80%), Tanzania Robusta (20%)	18	15,5	44	1 / 2.84	96	Espresso	3	25	65	4	The final cup, with a little extra grinds in the dose: 15,5 instead of 14 grams. The fun thing is that one would expect less coffee in the cup, but it was more.... And again spritzen, unfortunately..... A dark but soft espresso, with a huge mouthfeel that remains for a long time. A nice goodbye. Sorry, it was almost gone, before I was able to make a picture. Thanks for the opportunity to test. ☺ ☹	Hand lever	Eureka Atom 60	18 gr. basket, WDT

Taste is a bit less developed, not a longer lasting palate. I taste a bit of iron. And behind that some chocolate.	Hand lever	Eureka Atom 60	18 gr. basket, WDT

05.02.2025 14:00:45	Brazil Arabica (80%), Tanzania Robusta (20%)	16	14	40	1 / 2.86	94	Cappuccino	4	70	104	4	Fast flow; the beans are a little older. A bit lighter (?) then the previous cappuccino (settings exactly the same). Nice coffee, a little flat taste.	Hand lever	Eureka Atom 60	18 gr. basket, WDT
05.02.2025 10:48:39	Brazil Arabica (80%), Tanzania Robusta (20%)	16	14	39	1 / 2.79	94	Espresso	4	50	77	4	Espresso. Again a lot of spritzen, during the pull. Nice dark flavours, good mouthfeel. No grapefruit taste anymore (it is a nice taste, though). Long lasting, pretty aftertaste. A nice Italian espresso. But not the complexity I normally taste from the light roasts. 05.02.2025 10:42:32	Brazil Arabica (80%), Tanzania Robusta (20%)	16	14	36	1 / 2.57	93	Cappuccino	6	67	84	3	Cappuccino. Lot of spritzen during the pull. Comments from my wife: nice, I don't taste the chocolate very much. A little bitter. A heavy mouthfeel, but it is a nice cup. It is much darker ad usual (light roast). I need a second one for a better understanding.	Hand lever	Eureka Atom 60	18 gr. basket, WDT
